Pune.

Subject: Request for Consideration of Training and Placement Volunteer Participation for AIDS Engineering Students

Dear Sir,

I am writing to request your favorable consideration for the participation of Training and Placement (T&P) volunteers in upcoming events and activities related to the AIDS engineering department.

T&P volunteers are dedicated students who play a crucial role in assisting the department with various placement-related tasks. They actively participate in industry outreach, organizing career fairs, and connecting students with potential employers.

We believe that allowing T&P volunteers to participate in these activities will not only enrich their own learning experience but also contribute positively to the overall success of the AIDS engineering department in student placement and career development.

Thank you for your time and consideration. We are confident that your support will make a significant difference in the lives of our T&P volunteers and the success of the department.
